

Physical draft 1

Selected calculation status: provisional

Measured finish quantities only, not a complete construction materials list. Material recipes, coverage, accessories, purchasing and trade models are not included. Layout-only zones and cabinet blocks do not add room finish area. Quantity report only; no scaled drawing.

Unsupported ceiling shapes are unavailable, never verified as flat ceilings. Historical snapshots retain their captured policy and assumptions; no upgrade or new measurement confirmation occurs during export.

Display quantities and dimensions are rounded to four decimal places. CSV canonical columns retain the captured unrounded mm, mm2 or count values. Rounding is presentation only; displayed rows may not sum exactly.

Selected quantities

Ceiling area

Selected total: provisional · Coverage: complete

Quantities (ft2)

Gross	Raw deductions	Effective deductions	Net	Waste	Allowance	Adjusted
120	0	0	120	0%	0	120

Included target IDs: room:"c2535184-bdc9-4bda-af67-90de59e9e4d4"
Excluded target IDs: None

Source dimensions and models

Source reference includes unselected rooms and openings. Unknown and unconfirmed measurements are retained. Ceiling height is distinct from plan width/length, floor-to-floor rise and rough framing height.

Result schema	quantity-result-v2
Selected calculation status	provisional
Display length units	ft

Opening measurement basis	finished
Crown full-height gaps	□
Precision	Display quantities and dimensions are rounded to four decimal places. CSV canonical columns retain the captured unrounded mm, mm2 or count values. Rounding is presentation only; displayed rows may not sum exactly.
Boundaries	Measured finish quantities only, not a complete construction materials list. Material recipes, coverage, accessories, purchasing and trade models are not included. Layout-only zones and cabinet blocks do not add room finish area. Quantity report only; no scaled drawing.
Uncertainty	Complete describes only the captured selected outputs. Provisional values require review. Missing or unsupported inputs remain unavailable; available subtotals are not complete selected totals.
Privacy	Authorization applies when retrieving a saved report. A downloaded copy cannot be retroactively revoked.
